Product Backlog

Frontend:
- Pages:
    - Home page
    - Login
    - Sign up
    - Roommate finding/search/filtering
        - Some backend can't be "faked" for this (filter system)
    - User profile
    - House profile
    - Messaging (maybe)
- JQuery/JavaScript
- Personality/Matching Quiz
- Nav bar

Backend:
- Login System
- Search system
- Matching system

General:
- Work on merging things together/making it cohesive
- Logo design
